

Toolkit (ETU001)

Content

- True RMS digital multimeter with probe set - 1 No.
- Extended wired socket to interface with diagnostic plug - 1 No.
- Selector switch on panel-base - 1 No.
- Adjustable torque wrench with 13 mm and 19 mm inserts - 1 No.
- 19 mm double ended spanner - 1 No.
- Screw driver set with mains tester - 1 No.

Purpose

Testing, diagnosing and calibrating the Axle counter including

- Signal voltage level and frequency measurement
- Current / Voltage (AC & DC) measurement

Dimensions:

a = 435 mm approx

b = 320 mm approx

c = 95 mm approx
